

Marriage and Family Ministry Regional Conference

Every Church...Every Couple...

Why this conference is right for you!

This conference is intended for pastors, trainers, educators, ministry leaders, and potential leaders in marriage and family ministry. (Note: This conference is NOT intended for end users). The purpose is to educate and equip churches and organizations on how to launch or enhance how they serve marriages and families. There will be three key workshops taught by leaders with extensive experience in the areas of Marriage Ministry, Family Ministry, Stepfamily and Single Parent Ministry.

Attending this conference will serve to:

- Introduce and cast vision for marriage and family ministry to churches, leaders, and trainers.
- Educate, equip, and resource leaders in marriage and family ministry.
- Give key principles to serve marriages and families in your community and local church.
- Network and build relationships with other marriage and family champions in your community.
- Discover ways to encourage and equip couples in their marriage.
- Help leaders develop and implement models of family ministry in the local church.
- Find out how to prevent marital problems rather than repair broken relationships.
- Understand what it means to think of family ministry as a strategy for discipleship.
- Be given tools to help make good marriages even better.
- Realize how a church can effectively call and equip parents to be the primary spiritual trainers of their children.
- Discover how a church can develop a team-based, church-wide emphasis on strengthening families.
- Learn how a leadership team can intentionally change the culture of their church over an extended period of time so that discipleship is happening within the family, not just the church.
- Demonstrate why it is important for churches to do more for marriages than host weddings.
- Find practical tools and resources on how to strengthen your family, as well as the families within your church.
- Gain knowledge, education, and resources to specifically serve stepfamilies.
- Learn a variety of methods to address the needs of single parents and their children.

There is no doubt that you will walk away from this conference with new ideas, strategies, and tools to better equip you to serve marriages and families in your local church and community. This is a great opportunity to educate leaders in the most significant relationship needs that are impacting our culture today. We hope to see you at the [2009 Marriage & Family Ministry Regional Conference!](#)
